

## LOW VOLTAGE ARRESTOR 120V - 600V

### APPLICATION:

The Low Voltage Arrester is a versatile AC power surge suppressor designed for **industrial and commercial** applications, protecting against over-voltage surges. The innovative design accommodates a wide range of operating voltages with just three series and additional snap-in modules for high-leg services. Each module is individually replaceable, eliminating the need for rewiring during maintenance. This surge suppressor ensures reliable performance across a variety of voltage configurations, reducing downtime and simplifying installation.

### AVAILABLE VOLTAGES:

- **120V-240V Series:**
  - 120V Single Phase
  - 120V/240V Single / Split Phase
  - 240V Three Phase Delta
  - 240V Three Phase Delta <math>\sqrt{3}</math>
- **480V Series:**
  - 480V Three Phase Y
  - 480V Single Phase
  - 480V Three Phase Delta
- **600V Series:**
  - 600V Three Phase Y
  - 600V Three Phase Delta

### FEATURES:

- **Surge Rating:** 75kA max (8/20 $\mu$ s), 20kA nominal
- **Design Standard:** Listed to UL 1449 3rd Edition Type 1
- **Alarm Contacts:** NC/NO contacts for remote monitoring
- **Enclosure:** Rugged 6" x 8" x 4" design, suitable for industrial environments
- Replaceable modules for cost-effective maintenance
- **Weight:** 5.1 lbs.
