

PIPE CLEANER™ PC-4-24V

APPLICATION:

Dual-circuit, multi-stage in-line device designed to protect 4-20mA data and 5V, 24V, 110V/120V control wires in DC data and AC control applications. Installed in series with existing conduit wiring, it fits standard 3/4-inch metal conduit. Complements the Data Protection - 12 lines TS-12 Series for enhanced protection.

INSTALLATION:

- Installs in series with conduit wiring
- Fits standard 3/4-inch conduit
- Grounded through conduit
- Environment-resistant enclosure
- Easy installation with 4-wire capability

FEATURES:

- Surge Rating: 10kA (8x20µs waveform)
- Response Time: <5 nanoseconds
- Impedance: <1 Ohm
- Voltages: 5V, 24V, 110/120V DC
- Temperature Range: -20°C to +85°C
- Design: 4-wire protection, easy installation, rugged build
