

OFFSET CANDELABRA AIR TERMINAL - STAINLESS STEEL CDA-04xxO

APPLICATION:

Designed for use wherever an air terminal (lightning rod) is appropriate and streamer-delaying or static-dissipating qualities are desired. These air terminals replace standard air terminals in structural lightning protection systems compliant with UL 96A and NFPA 780 specifications. The terminal is mounted to the base most suitable for the structure on which it is installed. Custom sizes are available upon request.

AVAILABLE:

CDA-0448O: 5/8" X 48"w/ 1/2" hole solid stainless steel w/ 6" offset.

CDA-0472O: 5/8" X 72"w/ 1/2" hole solid stainless steel w/ 6" offset
