

U-BOLT CLAMP AIR TERMINAL BASE STAINLESS STEEL CTX-500-MNT-xxU

APPLICATION:

The Stainless Steel U-Bolt Clamp Series provides a UL listed bonding solution for lightning protection systems. Made of stainless steel for durability and corrosion resistance, the clamps are designed to bond conductors securely and can also function as air terminal bases. Use with class I & class II lightning protection conductors.

INSTALLATION:

Ensure compliance with UL 96A and NFPA 780 standards during installation. Each clamp is designed for quick installation on pipes or structural members. Simply position the clamp around the pipe, place the conductor or terminal, and tighten until secure. Each U-bolt clamp provides a 1-1/2" bonding surface and includes (2) 1/2" threaded connections for mounting air terminals horizontally or vertically.

AVAILABLE:

MNT-2.0U	2" U-Bolt Clamp: Fits pipe sizes 1/2" to 2-1/8"
MNT-3.0U	3" U-Bolt Clamp: Fits pipe sizes 1-1/4" to 3-1/4"
MNT-4.0U	4" U-Bolt Clamp: Fits pipe sizes 2-3/4" to 4-3/4"
MNT-6.0U	6" U-Bolt Clamp: Fits pipe sizes 4-1/2" to 7-1/4"
